Jeff and Jill Goldberg
Bo-Bud Construction
7615 McWhorter Place
Annandale, Virginia

Dear Jeff and Jill:

Dave and I both want to thank you for the personal involvement you maintained while our kitchen was undergoing a complete renovation.

When the kitchen designer realized that our house had been constructed by Bo-Bud, he asked if we wanted Bo-Bud to do the remodeling job. We were so delighted when he suggested that, as we watched the original construction of the house and know the fine quality of Bo-Bud's work.

It was also a pleasure to have many of the original tradesmen who were involved with the original construction of the house to come back for the renovation. Louie and his crew were amazed at how well they had installed the original woodwork. The tile installers knew what I was trying to accomplish with the design of the floor tile. And, Greg was a true artisan when it came to the installation of the cabinetry and the new sliding glass door.

Jeff, I know you thought I was spending too much for the renovation; however, with all the compliments that Dave and I have received on the kitchen, it was well worth every penny – and dollar.

All of our neighbors who have seen the kitchen have said they are going to use Bo-Bud when they are ready to remodel their kitchens.

Thanks again for everything. This all started because Dave wanted a new oven. Oh well, he's got two new ones and I still don't cook.

Sincerely,

Lynda McGovern-Orr
