To Whom It May Concern:

I had the pleasure of working with Bo Bud Construction Company during the summer of 2007, when they renovated my kitchen. They were highly recommended to me by friends and have a long standing reputation in the community.

This was an extensive renovation, which included moving walls and changes to the den, dining room and reworking an area to become a mud room. New hardwood floors were installed in my kitchen and den and the existing hardwood floors were all sanded and stained and matched exactly to the new floors. My project was managed exclusively by Jill and Jeff Goldberg. They were not only extremely professional but had employees and subcontractors that were outstanding in both the quality and efficiency of their work. They worked tirelessly with me on planning, together with the kitchen contractor and were always available to answer my questions or solve any problems. This eased the burden and disruption involved in a renovation. The contract presented to me was sound and there were no hidden costs or surprises in the fees charged. I would not hesitate to use this company again or to recommend them to friends and colleagues.

Sincerely:

Ingrid G. Schoenburg
